

REGIONAL CONCRETEWORKS

Great Lakes Region

Date, Time, Location

Thursday, November 2, 2017

7:30am - 12:30pm

The Madison Concourse Hotel
and Governor's Club
1 West Dayton Street
Madison, WI 53703

Cost: \$60 US per person

Agenda

7:30am - 8:00am	Registration and Breakfast
8:00am - 8:30am	Welcome and Introductions
8:30am - 9:15am	Making the Case for Concrete Buildings (Build With Strength)
9:15am - 10:15am	FMCSA Regulations/Hours of Service
10:15am - 10:30am	Break
10:30am - 11:15am	Defining the Role of the Ready Mixed Concrete Producer in the Construction Process
11:15am - 12:15pm	(QC/QA) Specifications for Concrete Flatwork and Pavements
12:15pm - 12:30pm	Conclusions and Closing Remarks

Topics

BUILD WITH STRENGTH COALITION UPDATE

Build with Strength is educating the building and design communities and policymakers on the benefits of ready mixed concrete, and encouraging its use as the building material of choice for low-to mid-rise structures. Join us to learn more about these efforts, and obtain the tools necessary to stand up for stronger and more resilient buildings in your own community.

FMCSA REGULATIONS/ HOURS OF SERVICE

Over the past 9 years there has been an unprecedented number of regulations that have been promulgated by the federal government. Many of these newly finalized and proposed rules have come from the U.S. Department of Transportation (DOT), particularly from the DOT agency known as the Federal Motor Carrier Safety Administration (FMCSA). FMCSA oversees regulations surrounding commercial motor vehicles (CMVs), such as ready mixed concrete trucks. These regulations include driver's Hours of Service (HOS), Electronic Logging Devices (ELDs), Sleep Apnea, CMV Insurance and Speed Limiters, just to name a few. If you're unclear about what these regulations are or how they'll impact your business, this session will fill in those blanks.

DEFINING THE ROLE OF THE READY MIXED CONCRETE PRODUCER IN THE CONSTRUCTION PROCESS

The construction process requires teamwork to complete a project. From the acquisition of the materials or components of the desired finished project to the process of assemblage requires rules and conditions which each party involved should fully understand and agree. Assumptions by any party in the process creates grounds for disagreement in the 'field' environment. The ready mixed concrete producer is a supplier of construction materials and as such should consider providing supplier conditions to the recipient of their quote for concrete to ensure there are no 'open' assumptions from which conflict can arise. This presentation will cover model provisions from which a ready mixed concrete producer may provide supplier conditions as part of their quote for ready mixed concrete. The presentation does in no way suggest that these conditions are absolute or should be used by a ready mixed concrete producer but only for consideration.

QUALITY CONTROL/ QUALITY ACCEPTANCE (QC/QA) SPECIFICATIONS FOR CONCRETE FLAT- WORK & PAVEMENTS

Over the last couple of decades, QC/QA specifications have been more readily adopted by owners for transportation related projects. The focus of this presentation will define the different types of specifications used by owners, reasons for using QC/QA specifications, pertinent points regarding QC/QA specifications, advantages of QC/QA specifications, and some statistical background to help understand how risk is better balanced between owners and contracting partners when using QC/QA specifications.

Space is Limited to 40 Attendees.

Registrations will be accepted on a first-come, first-served basis as long as space is available.

Register On-Line at www.nrmca.org/Conferences_Events/ConcreteWorks/2017/regional_greatlakes.asp

OR Complete form and fax to NRMCA at (301) 565-8200.

For security, we do NOT recommend emailing credit card information.
