

ICF ROUNDTABLE AND SITE TOUR EVENT

September 8 & 9 | Waukesha, WI

The Den at Fox Run / KB Walker Pre-assembled ICF Facility Tour

Event Description

Join Build with Strength, ICFMA and Wisconsin Ready Mixed Concrete Association for an Insulated Concrete Form round table and site tour event in Waukesha, WI. This event will explore the latest innovations in Insulated Concrete Form (ICF) construction that are helping contractors and developers build it right the first time. From improved energy-efficiency to lower life cycle costs, multifamily projects across the country are seeing the benefits of building with ICFs. Attendees will have the opportunity to tour the facility where ICFs are being pre-assembled, and the local multifamily project where this innovative approach to ICF construction is being used to save time and money on the job site. ICFs continue to be the building material of choice due to their cost effectiveness, energy efficiency, and quiet.

Who Should Attend:

Contractors, designers, owners and developers interested in learning about the benefits of building with Insulated Concrete Forms (ICFs) and concrete. **This event is by invitation only.**

To RSVP, contact **Donn Thompson** at dthompson@nrmca.org (224) 627-3933.

This Discussion will Explore:

- Emerging trends in multifamily development
- Innovations in concrete construction.
- Local project examples
