

# CONCRETE PARKING LOT

## Lodi Elementary School

Lodi, WI

### Owner

Lodi School District

### Ready Mixed Concrete Supplier

Advanced Concrete

### Project Description

Ready mixed concrete volume: **1,300 c.y.**

Concrete paving thickness: **4"**

Completion date: **2021**

### Project Details

This was a concrete overlay on a broken-up uneven black top parking lot and playground at the elementary school in Lodi, WI.

The concrete was placed and leveled off using a Somero laser screed and 3D technology. The total square footage of the job was just under 76,000 square feet. Pours were between 250 yards and 350 yards.

The total amount of ready-mix concrete on the job was roughly 1300 yards and it was completed in 4 days.

The drive lanes were 5" thick concrete, the parking lot was 4" thick concrete, and the playground was 3" thick concrete.
