

CONCRETE PARKING LOT

New Lisbon School Parking Lot

New Lisbon, WI

Owner

New Lisbon School District

Ready Mixed Concrete Supplier

CROELL

Project Description

Ready mixed concrete volume: 1,600 cubic yards
Completion date: June 2022

Project Details

The New Lisbon School District parking lot was originally designed for asphalt pavement.

After initial discussions with the school district regarding the benefits of concrete pavements, they jumped on board. One year later, construction began on the parking lot.

The parking lot consisted of 95,000 square feet of milling out existing asphalt pavement. It was replaced with 4-inch, 5-inch and 6-inch fiber reinforced concrete pavement.

There was also another 20,000 square feet of concrete overlay of existing asphalt pavement.
