

CONCRETE PAVING

Holy Family Catholic Church

Concrete Overlay

Owner

Holy Family Catholic Church

Ready Mixed Concrete Supplier

MCC, Inc.

Project Description

Ready mixed concrete volume: 2,000 cubic yards
Completion date: Summer 2023

Project Details

Holy Family Catholic Church in Brillion consists of approximately 130,000 square feet of fiber reinforced concrete pavement for a total of over 2,000 cubic yards of concrete.

About 85% of the parking lot consists of a concrete overlay of existing asphalt pavement.

The asphalt underneath the porte cochere and alongside the existing curb and gutter was removed to keep the current sidewalk elevations.

The church added on to the building, requiring a need for approximately 7,000 square feet of added parking.

The project in total took approximately 3 weeks, all while church and school operations continued.
