Project Details

The Northern Metal & Roofing project presented a set of unique challenges and opportunities. From the beginning, meticulous preplanning was crucial to ensure success. The reasons for choosing concrete included its durability and light reflectivity.

One of the greatest accomplishments was completing the 1,200-yard placement in a single day. This feat not only demonstrated the team's efficiency and dedication but also provided significant benefits to Northern Metal & Roofing, minimizing disruptions and ensuring a swift transition to their enhanced parking facilities.
