

WRMCA SCOOP NEWSLETTER

3rd Quarter 2026

WRMCA 2026 MIXER DRIVER CHAMPIONSHIP

The WRMCA hosted our 2026 Mixer Driver Championship on Saturday, August 1st, at the Fox Cities Stadium in Appleton. Twenty-one drivers participated in the championship, featuring driving stations, bowling, a golf hole-in-one contest, closest-to-the-egg, basketball hoops, and a timed pre-trip inspection challenge.

Thanks to the following drivers for participating:

Tyler Rowe from Advanced Concrete; Quinn Warner from BARD Materials; Tommy Gleason from BARD Materials; Derek Drexler from Carew Concrete & Supply; Dan Kissinger from Carew Concrete & Supply; Tom Szymik from Carew Concrete & Supply; Cale Boyd from County Ready Mix; Randy Erdman from County Ready Mix; Michael Meyer from Jackson Concrete; Gary Grebel from MCC; Eric Haldiman from MCC; Craig Clark from MCC; Jake Overby from Peters Concrete; Ben Curiel from Peters Concrete; Mike Krause from Peters Concrete; Andy Moker from Riv/Crete Ready Mix; Alfred Troupe from Riv/Crete Ready Mix; Treavor Tufnell from Schmitz Ready Mix; Rio Norton from Schmitz Ready Mix, Mike Setzer from Schmitz Ready Mix, Kevin Peterson from Wingra Redi-Mix

Thank you to the following companies for sponsoring the event:

Platinum: Amrize, Carew Concrete & Supply, County Ready Mix, Oshkosh Corporation, Roland Machinery, Schmitz Ready Mix, & Sika Corporation

Gold: Advance, a Terex Brand

Silver: Command Alkon, Euclid Chemical, Peters Concrete, St Marys Cement, Wingra Red-Mix, & Wisconsin Cement

Bronze: Master Builders Solutions, MCC, Premiere Concrete Admixtures, Revitalize Mixers, & Shumaker Industries

WRMCA 2026 MIXER DRIVER CHAMPIONSHIP

Congratulations to Gary Grebel of MCC for taking 1st Place! He will represent WRMCA at the NRMCA Mixer Driver Championship this October in Nashville. Hole-in-One medallions were awarded to Dan Kissinger, Michael Meyer, and Alfred Troupe. Twenty drivers successfully completed the basketball challenge to earn a medallion. Gary Grebel received a medallion for Closest to the Egg, and medallions were awarded for bowling to Michael Meyer, Kevin Peterson, Alfred Troupe, Treavor Tufnell, and Quinn Warner. Congratulations to the drivers on their outstanding performances!

From left to right:

- 🥈 2nd Place: Dan Kissinger, Carew Concrete
- 🥇 1st Place: Gary Grebel, MCC
- 🥉 3rd Place: Tom Szymik, Carew Concrete

Thanks to all the volunteers for helping out at the championship: Leslie Ashauer, Ian Baker, Cody Buhrow, Steve Burkett, Brett Craig, Alex Cripe, Paul Dahl Jr., Sara Fedderly, Andrew Glaeser, Billy Haas, Kyle Hartman, Tim Hendrickson, Conner Hietpas, Jason Inda, Brandon Johnson, Adam Kappell, Ryan Keenen, Chris Klassanos, Cael Large, Cole Large, Dan Large, Corey McLaughlin, Ethan May, Johanna Meister, Jake Miller, Krissy Nigl-Klabunde, Kyle Neuville, Aaron Peterson, Jenna Peterson, Jason Poole, Rick Ross, Dave Sievert, Ryan Smeester, Trent Schwenn, Steve Stermin, Edward Symkowski, Jamie Tassotti, Brad Towler, Eric Wall

WRMCA CLAY SHOOT AND POLITICAL FUNDRAISING

WRMCA PAC/Conduit Fundraiser Clay Shoot

The Clay Shoot will be held on Friday, October 9, at Wild Wing Sportsmen's Club in Campbellsport.

Schedule

10:00 am Registration

10:30 am Sporting Clays Shoot

12:00 pm Lunch

Cost: \$300 per team of 4, or \$75 for an individual shooter. **Please note:** Payment must be made by personal contributions only.

[Click here to register.](#)

Sponsorships are available for \$200. Sponsorship includes signage and acknowledgment at the clay shoot, plus recognition on the WRMCA website, social media, and in the newsletter. Company dollars can be accepted for sponsorships.

Thanks to GeoTest/Materials Testing Consultants and Wingra Redi-Mix for sponsoring.

[Click here to sponsor.](#)

YOUR VOICE. YOUR IMPACT.

Support WRMCA Political Giving

Help strengthen Wisconsin's ready-mixed concrete industry

A consequential election is approaching.

Control of the Wisconsin State Legislature and the Governor's Office will be decided on November 3. WRMCA is making its final push for political contributions ahead of this important fall election.

Please consider contributing to the WRMCA Conduit and/or PAC today.

To have the greatest impact, campaign contributions need to be put to work now. Our goal is to distribute the entire WRMCA political giving fund by mid-October.

CONTRIBUTE THROUGH THE WRMCA CONDUIT

[Click here to complete the WRMCA Conduit form](#)

or scan the QR code

IMPORTANT: Conduit contributions must be made with personal funds. Company funds cannot be accepted.

DIRECT YOUR CONTRIBUTIONS

If there is a specific lawmaker you would like to support, please contact Kim at knovak@wrmca.com. She can issue a contribution from your WRMCA Conduit account on your behalf.

If you currently have funds in a Conduit account, you can also expect to hear from Kim with information about opportunities to direct your contributions.

Thank you for supporting WRMCA's advocacy efforts and helping strengthen the voice of Wisconsin's ready-mixed concrete industry.

ACI CLASSES

ACI Grade 1 Class

WRMCA is hosting a Fall ACI Concrete Field-Testing Technician—Grade 1 Certification class on Wednesday, October 21 at Carew Concrete & Supply in Fond du Lac.

Class Location

Carew Concrete & Supply Co., Inc.
244 West Pioneer Road
Fond du Lac, WI

Please note: The class entrance is different from the plant entrance.

Registration Fees

WRMCA Members: \$500
Non-Members: \$700

[Click here to register.](#)

Contact Kim Novak at knovak@wirmca.com.

ACI Strength Testing Class

The WRMCA is sponsoring an ACI Laboratory Technician Concrete Strength Testing Technician Certification Course on Wednesday, January 27. The certification will be held at Geo Test, 2135 S 116th St, West Allis, 53227.

Scope & Knowledge

The program requires a working knowledge of the following ASTM Standards:

C617-Capping Cylindrical Concrete Specimens

C1231-Unbonded Caps for Concrete Cylinders

C39-Compressive Strength of Cylindrical Concrete Specimens

C78-Flexural Strength of Concrete

Certification Requirements

Recertification is required every 5 years and requires completion of the written and performance examinations.

[Click here to register.](#)

Contact Kim with any questions knovak@wirmca.com.

ASSOCIATION EVENTS

WRMCA Technical Workshop: Room Reservations Now Available

The 2027 Technical Workshop will be held January 28–29 at the Kalahari Resort in Wisconsin Dells. The schedule and registration details to follow.

[Click here to book your room](#) or contact the Kalahari Resort at 877-253-5466 and ask for the WRMCA rate of \$149 per night (+ taxes/fees). Please note: The dates shown on the booking website reflect the dates available for reserving a room at the WRMCA rate.

WRMCA OES Workshop: Room Reservations Now Available

The 2027 OES Workshop will be held February 18-19 at the Kalahari Resort in Wisconsin Dells. The schedule and registration details to follow.

[Click here to book your room](#) or contact the Kalahari Resort at 877-253-5466 and ask for the WRMCA rate of \$159 per night (+ taxes/fees). Please note: The dates shown on the booking website reflect the dates available for reserving a room at the WRMCA rate.

WRMCA Convention: Room Reservations Now Available

The 2027 Annual Convention will be held February 28–March 2 at the Scottsdale Resort & Spa, Scottsdale, Arizona.

Schedule of Events

The convention will kick off with a Welcome Reception on Sunday, February 28. Breakfast and educational sessions will take place Monday and Tuesday mornings, March 1–2, followed by a Closing Reception on Tuesday. We will share additional details soon on session topics, speakers, and optional afternoon activities.

Hotel Reservations

[Click here to book your room.](#) The WRMCA group rate is \$399 per night, plus taxes and fees, and is available for three days pre- and post-convention, based on availability. The hotel reservation deadline is January 29.

Agenda, registration, sponsorship opportunities, and additional convention details will be available soon. Stay tuned!

ASSOCIATION NEWS

WRMCA Call for Entries: 45th Annual Concrete Design Awards

The Wisconsin Ready Mixed Concrete Association invites you to showcase your outstanding concrete projects by submitting an entry for the Awards.

A special thank you to ACI Wisconsin, ADVANCE, A Terex Brand, Amrize, Carew Concrete, Euclid Chemical, Graymont, Mapei, Master Builders Solutions, MCC, Inc., Oshkosh Corporation, Premiere Concrete Admixtures, Schmitz Ready Mix, and St Marys Cement for their sponsorship and support.

[Click here for entry details.](#) [Click here to submit an entry.](#)

Submission Deadline: November 20

WRMCA Logo Gear: Online Store Open

WRMCA is excited to offer members the opportunity to order WRMCA logo gear through our online store!

Choose from a variety of apparel styles and colors. Members can select their preferred WRMCA logo color—full color, white, or black—to customize their gear.

Click the link below to browse the available options and place your order:

<https://pmapparel.chipply.com/wrmca/>

For questions, please contact P&M Apparel directly at 515-984-7740 or info@pmapparel.com.

WRMCA Updated Protect Your Investment Brochure

WRMCA recently updated its Protect Your Investment brochure, which highlights six important steps to help achieve quality, long-lasting exterior concrete. This resource is a great tool to share with homeowners, contractors, and customers to help promote proper concrete practices and protect their investment.

If you are interested in having copies sent to your company, please contact Cherish at cschwenn@wirmca.com.

The brochure is also available online to download. [Click here to view the brochure online.](#)

WRMCA WEBINARS

WRMCA Sponsored Webinar: Repairs Versus Patches: Durable Strategies for Lasting Concrete Repairs

Date/Time: Wednesday, October 21, Noon

Presenter: Todd Spindler, Sika Corporation

Description: This presentation will provide an introductory overview of considerations and methods for developing long-term structural concrete repair strategies rather than short-term cosmetic fixes, with an emphasis on the criteria and diligence necessary for success.

This webinar is the final installment of the 2026 Concrete Structures Webinar Series.

[Click here to register.](#)

WRMCA Sponsored Webinar: Low Compressive Strength Test Results

Date/Time: Wednesday, November 11, Noon

Presenter: Amy Dowell, P.E., Engineer, ACI

Description: Compressive strength tests are used for concrete acceptance based on criteria defined in ACI 318 and ACI 301. Test results not meeting these criteria are referred to as low strengths.

This presentation covers the “low strengths” topic in detail and provides answers to questions such as: what is considered a strength test and what is not, what the minimum frequency of testing is, what the acceptance criteria for strength tests are, and how to investigate strength tests not meeting the acceptance requirements. In addition, steps needed by a concrete supplier, in case acceptance criteria are not met, will also be discussed. To better understand discussed concepts, the presentation will use statistical concepts and numerical examples. A list of reading resources will be provided for those interested to study it in more detail.

[Click here to register.](#)

WRMCA SCHOLARSHIP

2026-2027 WRMCA Scholarship Program

Scholarships will be awarded to immediate family members of Wisconsin Ready Mixed Concrete Association members.

Scholarship Awards

- \$10,000 (over two years) – For students in CIM or Concrete Technology programs at: South Dakota State University, Middle Tennessee State University, New Jersey Institute of Technology, California State University, Chico, Texas State University, Alpena Community College (Michigan), or Concrete Technology Program at Rhodes State College (Ohio)
- \$3,500 – For students in Civil Engineering or Construction Management
- \$2,500 – For students enrolling in any school of their choice

Eligibility/Application

Applicants must be:

- A current high school senior
- A graduate of a secondary school, or
- A current college student (including nontraditional/continuing education students)

[Click here to complete the application form by November 30.](#)

• Email the following to knovak@wirmca.com OR info@wirmca.com:

- A 250–500-word essay on a concrete-related topic
- Two letters of recommendation (from non-relatives)
- A copy of your most recent transcript

The poster features the WRMCA logo (a stylized 'W' made of concrete blocks) and the text 'Wisconsin Ready Mixed Concrete Association'. The main title is '2027-2028 SCHOLARSHIP PROGRAM' in large, bold letters. Below it is the tagline 'Investing in our families. SUPPORTING THEIR FUTURE.' with a heart icon. A section titled 'FOR WRMCA FAMILY MEMBERS' states 'Pursue your passions. Build your future. The possibilities are endless.' Below this are four icons representing 'EDUCATION' (graduation cap), 'FAMILY' (group of people), 'OPPORTUNITY' (heart), and 'FUTURE' (star), each with a brief description. At the bottom right, it says 'Apply Today!' and 'Applications open soon. Watch for details and eligibility requirements at wrmca.org'. The background of the poster shows a stack of books and a graduation cap with a tassel.

2027-2028 SCHOLARSHIP PROGRAM

Investing in our families.
SUPPORTING THEIR FUTURE.

FOR WRMCA FAMILY MEMBERS
Pursue your passions. Build your future.
The possibilities are endless.

EDUCATION
Support for continuing education at any accredited college or university

FAMILY
For children, stepchildren, grandchildren, or dependents

OPPORTUNITY
Empowering the next generation to achieve their goals

FUTURE
Helping our families succeed—in school, in life, and in their dreams

Apply Today!
Applications open soon.
Watch for details and eligibility requirements at wrmca.org

WRMCA DELIVERY PROFESSIONALS OF THE YEAR

**Wisconsin
Ready Mixed
Concrete
Association**

CONGRATULATIONS ★ TO OUR 2026 ★ DELIVERY PROFESSIONAL OF THE YEAR WINNERS!

The Wisconsin Ready Mixed Concrete Association (WRMCA) OES Committee is pleased to announce the recipients of the 2026 Ready Mixed Concrete Delivery Professional of the Year Award.

This year's winners were selected from a group of nominees representing ready-mix producers across Wisconsin. Recipients are honored in categories based on the annual yardage poured.

Each winner will receive a Carhartt® jacket in recognition of their achievement.

2026 WRMCA DELIVERY PROFESSIONAL OF THE YEAR WINNERS

CATEGORY 1

**Brian
Ostrowski**

County Ready Mix –
Weston Home Plant

35-year
veteran driver

CATEGORY 2

**Ashley
Kelly**

American Materials –
Chippewa Falls
Home Plant

24-year
veteran driver

CATEGORY 3

**Steve
Martig**

Wingra Redi-Mix –
Fitchburg Home Plant

35-year
veteran driver

CATEGORY 4

**Dennis
Johnson**

RivCrete Ready Mix –
Milwaukee Home Plant

31-year
veteran driver

**Congratulations to Brian, Ashley, Steve, and Dennis
on this well-deserved recognition.**

★
Thank you for your commitment to safety, professionalism, and excellence
in serving Wisconsin's ready-mixed concrete industry.

Wisconsin Ready Mixed Concrete Association (WRMCA)
Building stronger communities with concrete.

WRMCA READY-MIX EMPLOYEE APPRECIATION WEEK WINNERS

The Wisconsin Ready Mixed Concrete Association (WRMCA) is proud to recognize five outstanding professionals in each category whose hard work, dedication, and commitment help keep Wisconsin's ready-mix concrete industry running strong every day.

2026 MAINTENANCE CATEGORY WINNERS

- ◆ Trevor Laufenberg – Advanced Concrete
- ◆ Wayne Slaney – American Materials
- ◆ Brandon Johnson – Carew Concrete & Supply Co.
- ◆ Stetson Oelke – County Ready Mix
- ◆ Kamron Banks – Schmitz Ready Mix

2026 QUALITY CONTROL CATEGORY WINNERS

- ◆ Anthony Collins – BARD Materials
- ◆ Jacob Ostendorf – Cemstone Ready Mix
- ◆ Katie Toelle – Northern Lakes Concrete
- ◆ Chad Bruski – Wingra Redi-Mix
- ◆ Timothy Zignego – Zignego Ready Mix

2026 DISPATCH CATEGORY WINNERS

- ◆ Shelly Kruzicki – MCC
- ◆ Taylor Kazda – Northern Lakes Concrete
- ◆ Glenn Thompson – Peters Concrete
- ◆ Nick Hoerchner – RivCrete Ready Mix
- ◆ Carri Traczyk – Todd's Redi-Mix

2026 OFFICE/ADMIN CATEGORY WINNERS

- ◆ Bonnie Kriel – Advanced Concrete
- ◆ Anna Norman – Bichler Concrete & Gravel
- ◆ Natalie Flores – Carew Concrete & Supply, Co.
- ◆ Tammy Besaw – Peters Concrete
- ◆ Sayre Ystad – Sternweis & Sons, Inc.

2026 DRIVER CATEGORY WINNERS

- ◆ Hank Peterson – County Ready Mix
- ◆ Thomas Cook – Lycon
- ◆ Baily LaViolette – Premier Concrete
- ◆ Mark Ruiz – River City Ready Mix
- ◆ Francisco Perez – Wingra Redi-Mix

Thank You

Your dedication and professionalism make a difference every day.
Thank you for being an essential part of Wisconsin's ready-mix concrete industry!

NRMCA UPDATE

Tips, Chips and Sips...A Smorgasbord of Information **By Luke McHugh, P.E. Senior Director - Promotion, National Ready** **Mixed Concrete Association (NRMCA)**

Being a meatatarian, the thought of medium-rare sirloin tips along with a side of seasoned potatoes and a bold glass of cabernet sounds delicious. Yet those of us in the ready-mix industry are known to eat, sleep, and drink all things concrete.

It should come as no surprise that the NRMCA plates a full menu of delectable concrete topics in an easily digestible “What, Why & How” format through its Technology In Practice (TIP), Concrete In Practice (CIP), and Specification in Practice (SIP) collection.

Technology in Practice is a series of 26 technical topics developed by the NRMCA Research Engineering and Standards (RES) Committee targeted at ready-mixed concrete industry personnel to support internal as well as customer education. Topics include... Quantifying Concrete Quality (TIP 1), Estimating Concrete Strength Using Maturity (TIP 15), Concrete Mixtures to Resist Sulfate Attack (TIP 25)...and much more.

The Concrete In Practice series is promotion through education. There are now 46 continually updated informational briefs that explore more general topics. Recently revised CIPs include Jobsite Addition of Water (CIP 26), Supplementary Cementitious Materials (CIP 30), Ordering Ready Mixed Concrete (CIP 31), and Portland Limestone Cement (CIP 45), while Environmental Product Declarations (CIP 46) is the newest addition to the group.

Lastly, the Specification in Practice series is helping to improve concrete specifications. SIPs can be used by specifying engineers and ready-mixed concrete industry personnel to improve concrete specifications. Each piece states a prescriptive requirement; indicates whether the requirement is mandated by industry standards; discusses the basis for the requirement, either real or perceived; describes adverse implications of the requirement; suggests alternative performance criteria; and highlights the benefits of using the performance requirements in place of the prescriptive requirement. The set explores Limits on Quantity of Supplementary Cementitious Materials (SIP 1), Limits on Water-Cementitious Materials Ratio (SIP 2), Minimum Cementitious Materials Content (SIP 3), Restrictions on Type and Characteristics of Fly Ash (SIP 4), and Restrictions on Aggregate Grading (SIP 5).

So, make a reservation to feed your mind and satisfy your thirst for concrete knowledge with a healthy serving of NRMCA's TIPs, CIPs, and SIPs located at www.nrmca.org.

NRMCA Monthly Safety Initiative Volume 7, Issue 9

SLIPS, TRIPS AND FALLS

Slips, Trips and Falls

According to available industry data from OSHA and the BLS, slips, trips and falls account for the majority of all workplace accidents. During the winter months, this reality is highlighted by more muddy, wet and icy walking and working surfaces. To reduce and ultimately eliminate slips, trips and falls, and the injuries and costs associated with them, especially in the winter months, ready mixed concrete producers should take just a few minutes to assess their operations and any liabilities. Cooler weather will so be upon us, and being prepared for winter-related slips, trips and falls can help prevent injuries and incidents.

Prevention

Ready mixed concrete production facilities should have all employees review procedures at plants for walking, working surfaces and fall protection on a **regular basis. Reviews should include regular inspections followed by any necessary fixes, changes** or updates to surfaces. Many slip and fall incidents occur in the morning, after low overnight temperatures when drivers are just starting their days, often in the dark.

Actions

- **Think first**
- Use 3 points-of-contact when ascending or descending stairs or ladders
- Keep focused on footing and hand rails
- Limit slippery or icy surfaces
- Keep surfaces dry
- Adhere to proper housekeeping
- Eliminate obstacles
- Spread sand and/or salt
- Use boot/shoe crampons or cleats
- Lay out anti-slip mats or treads
- Maintain proper lighting in yards and plant areas where slipping hazards may exist

Resources

Night Pours... Who's Afraid of the Dark?

Ready Mixed Concrete Producers and Working at Night

Whether it's at the plant, on the road, or at the jobsite, working at night brings another added layer of safety concern to the ready mixed concrete industry. Particularly, construction sites can be difficult places to work. There are areas of limited visibility, along with a lot of activity. In some cases, concrete pours are scheduled for night-time hours to help minimize traffic confusion, and in other cases contractors take advantage of cooler night-time temperatures during the summer months. Night pours can increase the potential for slips, trips, and falls (the highest injury category in the ready mixed concrete industry), not to mention vehicle accidents, as well.

What to Know About Night Work at the Plant and On the Job

Working at a concrete plant during hours of darkness, or on the job at night pours, are a common occurrence for our industry. Many concrete delivery sites are muddy, slippery and have uneven terrain. Adding night conditions with limited visibility always add to the accident potential. Be especially mindful when you take the first step off the mixer and maintain contact with the mixer until you are sure that your footing is secure. Obviously, with night pours comes limited visibility along with impaired depth perception. Temporary jobsite lighting can add a "blinding affect" in some cases. Slowdown around the plant, and at the jobsite during night-time hours. Dew points go up at night making surfaces wet and slippery in some cases. If jobsites are too dark and lack good lightning, inform your supervisor. Make sure to walk the jobsite before entering. Trenches and excavations may be particularly hard to see. Use a spotter wearing a proper safety vest. Be especially mindful of people when maneuvering a mixer at the plant or jobsite at night. And let's not forget early morning pours which can often begin long before the sun even rises. Finally, producers need to be mindful of fatigue that irregular hours can induce, as well as Hours of Service regulations.

Night Pours... Dos and Don'ts

- Think first, slow your vehicle down at night
- Use 3-points of contact, and slow your movements at night
- Don't assume your path is clear
- Use a flashlight or hardhat headlamp to illuminate your path
- Get out and look behind you when backing at night
- Make sure to wear a proper hi-vis vest
- Use a spotter at night, especially when backing
- Turn off headlights after you back into a pump
- Be just as careful at the plant during hours of darkness
